

In re Application of:
JACOB et al.

Group Art Unit: 2183

Examiner: Aimee J. Li

For: SYSTEM AND METHOD USING
EMBEDDED MICROPROCESSOR AS
A NODE IN AN ADAPTABLE
COMPUTING MACHINE

Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

I hereby certify that this correspondence and the documents referred to as attached therein are being electronically transmitted to the U.S. Patent and Trademark Office via EFS-Web to the attention of Examiner Almee J. Li, on the date shown below.

07/30/07
Date

I, James A. Sheridan, Applicants' attorney, hereby declare and state that I have made the following efforts to obtain an affidavit from the inventor, Rojit Jacob, in the subject application.

On Wednesday, June 20, 2007, as shown by Exhibit A, I caused an email to be sent to Nancy Gamburd (outside patent attorney for Quicksilver, previous assignee of this application) asking for contact information for former Quicksilver inventors and was advised that the best person to contact was the representative of the original assignee of the subject application. Mr. Mark Kaufman,

On June 27, 2007, as shown by Exhibit B, I caused an email to be sent to Mr. Mark Kaufman, asking for any possible information on the whereabouts of Mr. Jacob.

On June 28, 2007, as shown by Exhibit C, I was copied on a response to my assistant, Ms. Robyne Orlando, that the original assignee of the subject application had no information on Mr. Jacob.

On June 20, 2007, as shown by Exhibit D, I sent a Federal Express envelope with a letter asking Mr. Jacob's cooperation in preparing the accompanying declaration under 37 CFR1.131. This package was sent to Mr. Jacob at his last known address, which was the address listed in the declaration to the present

Application. Although the package was apparently accepted, no signature was ever shown provided for the package (see the forth page of Exhibit D) and no response was ever received from Mr. Jacob.

On June 29, 2007, as shown by Exhibit E, substantially the same letter was sent as in Exhibit D. The FedEx Company, the carrier of the package, sent a response indicating that the recipient had moved and had left no forwarding address or phone number.

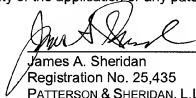

On July 5, 2007, as shown by Exhibit F, I sent a third letter again asking for Mr. Jacob's cooperation. The package was again returned as being sent to an incorrect address, as shown on the third page of Exhibit F, and was returned to the office of the undersigned.

At the time of each of these mailings, I conducted a search in Google™ inserting the name Rojit Jacob. Although no printout of that search was kept at the time, a printout of a repeat effort of that search made on the date of this declaration is attached hereto as Exhibit G. The search results show that no address data is available for Mr. Jacob.

Based on the foregoing, it is clearly established that every effort has been made to contact Mr. Jacob at his last known address, and he is not available to cooperate in the preparation of a declaration under 37 CFR 1.131 to swear behind the Master reference.

I hereby declare that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true; and, further, that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under Sec. 1001 of Title 18 of the United States Code, and that such willful false statements may jeopardize the validity of the application or any patents issued thereon.

Quicksilver Docket Number: 021202-003810US
Our Docket Number: NVDA/P002844
Entitled: SYSTEM AND METHOD USING EMBEDDED MICROPORSSOR AS A NODE IN AN ADAPTABLE COMPUTING MACHINE
Inventors: Rojit Jacob and Dan MingLun Chuang

Dear Nancy,

On the subject case we have an urgent need to contact one of the inventors, Mr. Dan MingLum Chuang, to get his signature on an affidavit antedating a reference. We have tried to reach Mr. Chuang at his previous address in San Diego (13113 Sierra Mesa Court) he does not seem to be there or have a listed telephone number.

Can you contact someone from Quicksilver who might have his address. I noticed from the file that he has updated his contact information at least once since leaving the company. This is a matter of considerable urgency as the response is fully reliant on this affidavit to antedate a published document.

Thank you for your time. Please call me if you have any questions.

Kind Regards,

James A. Sheridan

AS A NODE IN AN ADAPTABLE COMPUTING MACHINE
Inventors: Rojit Jacob and Dan MingLun Chuang

Dear Mr. Rojit:

I am currently working on patent application titled, "System and Method Using Embedded Microprocessor as a Node in an Adaptable Computing Machine," a copy of which is enclosed. This application is based on a disclosure document titled "PSN Node Programmable Scalar Node," a copy of which is also enclosed.

All that I need from you is a signed statement that the disclosure document was prepared before September 24, 2004. We know this is true because a copy of the "PSN Node Programmable Scalar Node" article was delivered to your previous patent attorney on September 23, 2002 and filed in the USPTO on September 30, 2002.

Please call me ASAP at (650) 384-4401 so we can discuss the proper form of the affidavit. I also can answer any other questions that you may have.

Very truly yours,

PATTERSON & SHERIDAN, L.L.P.

☐ Please print or type your name and address on this card. If you are a business, please print the name of the business and the name of the person to whom the order should be sent. If you are a resident of a foreign country, please print the name of the country and the name of the person to whom the order should be sent. If you are a resident of a foreign country, please print the name of the country and the name of the person to whom the order should be sent.

Figure 1. Schematic of the experimental setup. The subject is seated in a chair and views the screen through a mirror. The screen displays the target (a red dot) and the starting position (a green dot). The subject's hand is positioned at the starting position. The distance between the starting position and the target is 10 cm. The subject is instructed to move the hand to the target as quickly and accurately as possible. The screen is 100 cm high and 100 cm wide. The subject's hand is positioned at the starting position. The distance between the starting position and the target is 10 cm. The subject is instructed to move the hand to the target as quickly and accurately as possible. The screen is 100 cm high and 100 cm wide.

Mr. Rojit Jacob
4501 Snell Avenue, #3208
San Jose, CA 95136

Re: Quicksilver Number: 021202-003810US
Our Number: NVDA/P002844
Entitled: SYSTEM AND METHOD USING EMBEDDED MICROPROCESSOR
AS A NODE IN AN ADAPTABLE COMPUTING MACHINE
Inventors: Rojit Jacob and Dan MingLun Chuang

Dear Mr. Rojit:

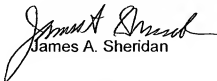

This is our third attempt to contact you. Our office is currently working on the patent application titled, "System and Method Using Embedded Microprocessor as a Node in an Adaptable Computing Machine," a copy of which is enclosed. This application is based on a disclosure document titled "PSN Node Programmable Scalar Node," a copy of which is also enclosed.

All that I need from you is a signed statement that the disclosure document was prepared before September 24, 2004. We know this is true because a copy of the "PSN Node Programmable Scalar Node" article was delivered to your previous patent attorney on September 23, 2002 and filed in the USPTO on September 30, 2002.

Please call me ASAP at (650) 384-4401 or (650) 269-6204 (cell) or email me at the jsheridan@pattersonsheridan.com so we can discuss the proper form of the affidavit. I also can answer any other questions that you may have.

Very truly yours,

PATTERSON & SHERIDAN, L.L.P.

James A. Sheridan
